

# You and your colleagues are invited to a **Clinical Education Session**

- Earn 1 CNE point per workshop
- Enjoy light refreshments
- For all CSSD and periop nursing levels

## **Kimberly-Clark\*** **Education FOUNDATION**

### **Speaker:** **Terry McAuley**

Terry McAuley is an independent Consultant and Principal of STEAM Consulting.

Her extensive experience includes infection control and sterilisation auditor for the Victorian Department of Human Services, development of education and training programs, and consultancy reviews for public and private healthcare facilities throughout Australia and New Zealand.

Terry represents the Australian Infection Control Association on the Australian Standards committees AS/NZS4187:2003 and AS/NZS 4815.

### **Venue**

**Conference Room  
St Vincent's Education Centre  
3rd Floor, Healy Wing  
41 Victoria Parade  
Fitzroy**

### **"STANDARDS! STANDARDS! AS/NZ 4187, ISO 11607 – What's the Wrap on Sterilising Reusable Medical Devices?"**

**1pm – 3pm Monday 12 September 2011** Light refreshments included

AS/NZS 4187:2003 is under review and increasingly we hear ISO 11607 mentioned by colleagues and the industry. By attending this workshop you'll be able to:

- Discuss the terminology and definitions used in ISO 11607 to describe packaging materials for terminally sterilised medical devices
- Outline the major requirements of ISO11607 as applicable to packaging of terminally sterilised medical devices in healthcare facilities
- Review and compare the requirements of AS/NZS4187:2003 to the requirements in ISO 11607
- Evaluate the methods of packaging of terminally sterilised medical devices in your healthcare facility
- Discuss the impact on clinical teams responsible for processing and using reusable medical devices

### **RSVP by 5 September 2011**

with your name (and your colleagues' if applicable) and facility to:

Phone: 02 9963 8664
