

Kimberly-Clark : Delivering Clinical Solutions That Give Customers "One Less Worry".

Kimberly-Clark has always offered our healthcare customers products they can rely on and so much more. Our level of customer care is unmatched in the industry, with utilisation reviews to help customers streamline their operations and with accredited¹ KNOWLEDGE NETWORK* educational programs. We help customers keep pace with important trends and improve compliance in their areas of specialty.

Now we're taking our customer-centered approach to a new level:

- Focus on major clinical issues
- Build on customer insights to anticipate needs

Our objective is to deliver breakthrough solutions to help prevent, diagnose and manage major issues in three clinical areas:

- Healthcare-Associated Infections (HAIs)
- Surgery
- Digestive Health

Customers' needs will be met through the knowledge, expertise and consultative approach of the Kimberly-Clark sales team and through a company-wide commitment to provide best-in-class service.

Day in and day out, you have enough on your mind. That's why, at Kimberly-Clark, our mission is to deliver clinical solutions you can depend on to meet the demands of your fast-paced world.

For decades, our people and products have earned your trust. Whether your needs involve preventing healthcare-associated infections, surgical or digestive health solutions, with Kimberly-Clark you will always have one less worry.

Speak to a Kimberly-Clark representative today for more information about our wide range of products you can rely on to deliver breakthrough solutions.

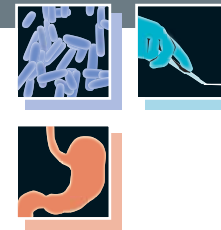

Healthcare-Associated Infection Solutions

Healthcare-associated infections (HAIs) are a global issue affecting both patients and healthcare workers, representing an annual impact of between USD\$5–\$30 billion² world-wide to healthcare facilities. Helping you manage HAIs is a primary goal of Kimberly-Clark, with our efforts directed to two crucial areas:

Ventilator-Associated Pneumonia (VAP)

VAP is a top clinical concern in healthcare today, associated with high incidence rates, mortality and costs. Kimberly-Clark is committed to providing clinicians with a range of innovative, effective clinical solutions to prevent, diagnose and manage VAP.

Healthcare Worker Infection Protection and Safety

Our solution includes protective apparel such as gowns, gloves, masks, and eyewear; and educational programs and best practice recommendations on infection prevention.

Ventilator-Associated Pneumonia (VAP):

VAP Diagnostic Catheter

Endotracheal Tubes

Closed Suction Catheters

Oral Care System

Examination Gloves

Protective Apparel

Facial Protection

Best Practices

Surgical Solutions

Invasive procedures can lead to patient complications, resulting in secondary conditions that require additional and/or extended treatment.

Our solutions are designed to prevent or reduce complications before, during, and after surgery.

Surgical Site Infections (SSIs)

SSIs result in up to AUD\$268 million³ in treatment costs every year in Australia alone.

“Single-use gowns and drapes provide optimum barrier protection, consistent quality and dependability each time they are used. The result is peace of mind.”⁴

Surgical Site Infections (SSIs):

Surgical Gloves

Surgical Gowns

Facial Protection

Protective Apparel

Surgical Drapes

Sterilisation Packaging

Digestive Health Solutions

Kimberly-Clark has long been a leader in the area of digestive health.

The quality construction and reliability of our nutrition delivery, endoscopic accessories and diagnostic products help manage the various disease states of the digestive tract.

Nutrition Delivery

We pioneered the development of the balloon retained tube for gastric feeding. Today, we continue to lead the way with solutions that feature a wide variety of innovative designs for gastric, jejunal, and gastro-jejunal access.

Digestive Health Solutions:

Enteral Feeding Tubes

Tube Placement Facilitation

Nutritional Delivery Accessories

Diagnostic and Monitoring Devices

Endoscopic Accessories
